

Conservation Explorers Program
Recommendation Form
Summer 2019

Dear Recommender:

Thank you for taking the time to help us assess applicants for the summer 2019 Conservation Explorers Program.

Conservation Explorers is an environmentally based outdoor summer program for current 8th grade students. The goal of this program is to increase students' knowledge and appreciation of the role conservation and stewardship play in the environment.

Focusing on water, wildlife and way of life, students get to know the various eco-systems in Lake County and understand the importance of conservation efforts to study and protect these unique areas. We learn how to care for them and the work that goes into conserving them.

Please answer the questions on both sides of this form; add additional pages if needed.

Place the completed recommendation in a sealed envelope and return it to the applicant for inclusion with her/his application materials.

Please be as honest as possible to help us find students who will contribute to the program as well as benefit from it.

If you have any questions, feel free to contact April Vaos, avaos@lcpd.org or Susie Hoffmann, shoffmann@lfol.org.
